

Oxivir™^{TM/MC} Tb Cleaner Disinfectant is designed to work as part of an effective system in cleaning and maintaining healthcare facilities.

Oxivir™^{TM/MC} Tb

One-step Cleaner Disinfectant

A hospital grade disinfectant that delivers broad spectrum germicidal action. Formulated with patented hydrogen peroxide technology to deliver faster, more effective cleaning performance. Meets OSHA's bloodborne pathogen standards for HBV and HIV.

Alpha-HP™^{TM/MC} & RTD®

Multi-Surface Cleaner with Accelerated Hydrogen Peroxide

The innovative RTD® Dispensing System allows you to use multiple dilution rates to fill bottles and buckets quickly, easily and safely. Alpha-HP™^{TM/MC} Multi-Surface Cleaner is ideal for floors and a variety of healthcare hard surfaces.

MicroQuick™^{TM/MC}

Microfiber Cleaning Cloths

Superior quality and durable microfiber cloth that cleans and leaves no lint despite repeated laundering. Removes surface contamination more efficiently than regular towels and can be used on most surfaces. Ideal for RTU disinfectants.

Pace™^{TM/MC}

High Impact Floor Cleaning System with Microfiber Pads

Ideal for healthcare in delivering rapid, high efficiency cleaning on all types of floors, damp mopping, wet mopping, disinfection and dust mopping. Significantly reduces overall operating costs.

JohnsonDiversey is a leader in the development of products and systems that are designed to help deliver safe, healthy, high performance facilities.

Introducing Oxivir™ Tb Cleaner Disinfectant

The shortest distance between disinfection and compliance

THE SCIENCE OF COMPLIANCE. Today, cleaning and disinfecting hard surfaces is critical to reducing the incidence of hospital acquired infections. The challenge is to ensure compliance in an increasingly more complex, fast-paced environment. This can only be achieved with an effective system in place: Broad spectrum germicidal activity with a realistic contact time, chemistry that can be used when patients are present, products that are easy to use and can be used everywhere. Achieving this is a science. The Science of Compliance.

THE SCIENCE

Oxivir™ Tb Cleaner Disinfectant is based on patented hydrogen peroxide technology*. This patented science is a synergistic blend of commonly used ingredients, that when combined with low levels of hydrogen peroxide, its germicidal potency increases dramatically.

For example, standard 3.0% hydrogen peroxide requires 75 minutes to kill Poliovirus Type 1. The active in Oxivir™ Tb Cleaner Disinfectant – 0.5% hydrogen peroxide – requires just one minute.

*AHP and design trademark and patented AHP hydrogen peroxide technology are properties licensed from Virox Technologies.

COMPLIANCE

Germicidal Activity

Maintaining compliance means that disinfectants are used according to label directions. Oxivir™ Tb Cleaner Disinfectant, with its one minute disinfection contact time, adds confidence that you are in compliance, and breaking the chain of infection. When the chain of infection is broken, nosocomial infections are reduced. The regular use of Oxivir™ Tb Cleaner Disinfectant can help reduce costs associated with nosocomial infections.

Oxivir™ Tb Cleaner Disinfectant delivers broad spectrum germicidal action:

- Bactericidal and virucidal in one minute
- Tuberculocidal in 5 minutes
- Non-food contact sanitizer in 30 seconds
- Meets OSHA Bloodborne Pathogen Standards

infection and compliance.

Staff and Patient Friendly

The comfort, safety and well being of staff and patients are always a concern. Oxivir™ Tb Cleaner Disinfectant was developed with this in mind. Use it with confidence in patient rooms and public areas alike.

- **HMIS/NFPA Hazard Rating**
 - Health 0
 - Flammability 0
 - Reactivity 0
- **Pleasant to use with no strong odor**
- **Contains no Volatile Organic Compounds (VOC's)**
- **Contains no nonyphenol ethoxylates (NPE's)**

Compatibility

It is important that environmental services staff use products that are not only compatible with the surfaces being cleaned, but also with the cleaning tools used in daily cleaning and the environment. Oxivir™ Tb Cleaner Disinfectant addresses all of these.

- **Non-corrosive formula is safe on most healthcare hard surfaces**
- **Designed for use with microfiber cleaning tools with no loss of active ingredient**
- **Active ingredient breaks down to water and oxygen**

	OXIVIR™ Tb	BLEACH
ODOR	PLEASANT	CHLORINE
C.DIFF – SPORICIDAL CLAIM	NO	NO
TUBERCULOCIDAL	YES- 5 MIN	NO
HMIS / NFPA – REACTIVITY RATING	0	1
HAZARDOUS DECOMPOSITION PRODUCTS	NONE	CHLORINE
